Step 6 : Alternative scenario  
At least one required field is blank  
6.1 Display an error message the fields are not correctly filled in  
6.2: Ask the user to correct themselves  
In the nominal scenario, all fields are filled in correctly.

Step 8 : Alternative scenario  
At least one data is not validate  
8.1 Display an error message the informations are not valide  
8.2: Ask the user to correct themselves  
In the nominal scenario, all data is corrects

Step 9 : Error scenario  
There is no answer with the data base  
9.1 Display an error message the data base is out of order  
9.2: The scenario end  
In the nominal scenario, we have a positive answer

Step 12 : Error scenario  
This evaluation already exists.  
12.1 Displaying an Error Message  
12.2 The scenario end  
In the nominal scenario, this evaluation doesn't exist

Step 13 : Error scenario  
There is no answer with the data base  
13.1 Display an error message the data base is out of order  
13.2: The scenario end  
In the nominal scenario, we have a positive answer

Step 17 : Error scenario  
Recording of the evaluation is impossible  
16.1 Display an error message recording impossible  
16.2: The scenario end  
In the nominal scenario, the evaluation is record.

1 : Click on delete evaluation

2 : Display a message Are you sure you want to remove this evaluation?

3 : Send confirmation

4 : Verify the user role

5 : Verify that the user is logged in

6 : Send the query

7 : Execute the query

8 : Return the query response

9 : Check the answer

10 : Send the query

11 : Execute the query

12 : Return the query response

13 : Check the answer

14 : Move evaluation to the archive

15 : Display a message the evaluation has been archived

Step 4 : Error scenario

The role does not match

4.1 Display an error message

4.2: The scenario end

In the nominal scenario, the role fits well.

Step 5 : Error scenario

The user is not connect

5.1 Display an error message

5.2: The scenario end

In the nominal scenario, the user is already connect

Step 6 : Error scenario

There is no answer with the data base

6.1 Display an error message the data base is out of order

6.2: The scenario end

In the nominal scenario, we have a positive answer

Step 9: Error scenario

the evaluation doesn't exist

9.1: Displaying an Error Message

9.2: The Scenario Stops

In the nominal scenario, the evaluation exist

Step 10: Error scenario

There is no answer with the data base

10.1 Display an error message the data base is out of order

10.2: The scenario end

In the nominal scenario, we have a positive answer

Step 14 : Error scenario

The evaluation is not archived.

14.1: Displaying an Error Message

14.2: The Scenario Stops

In the nominal scenario the evaluation has been removed
